

For every baker

APEX Spiral Cooler

Custom-configured cooling for a variety of applications.

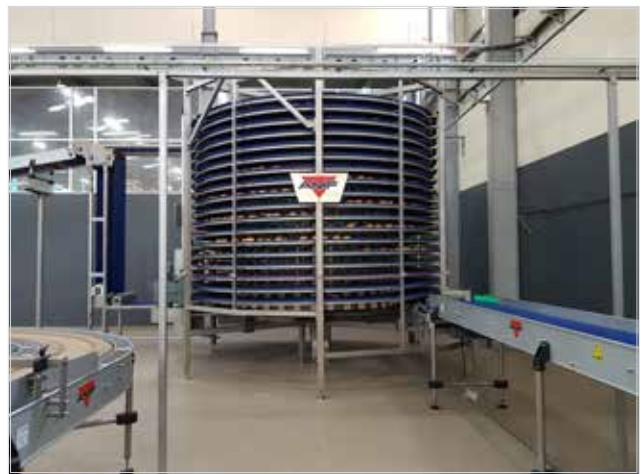

DESIGN INNOVATIONS

APEX Spiral Coolers are the best value engineering, suitable for conveying a variety of product types and product applications. Designed with high operating efficiency at minimum power requirements, cooling options provide optimal product control and orientation. APEX Custom-configured Spiral Conveyors ensure reliable product cooling and transfer to AMF's efficient packaging technology.

Improved Sanitation and Maintenance Access

Full Wash-Down Construction

Eliminates Product Movement On Belt
